

POLSTAGE

PULSE NOZZLE

WE GUARANTEE A CONSTANT FLOW OF BULK MATERIALS

Pulse Nozzles Activates bulk material with a with coordinated, 360-degree bursts of compressed air/gas

Most common bulk material flow problems:

Poor flow

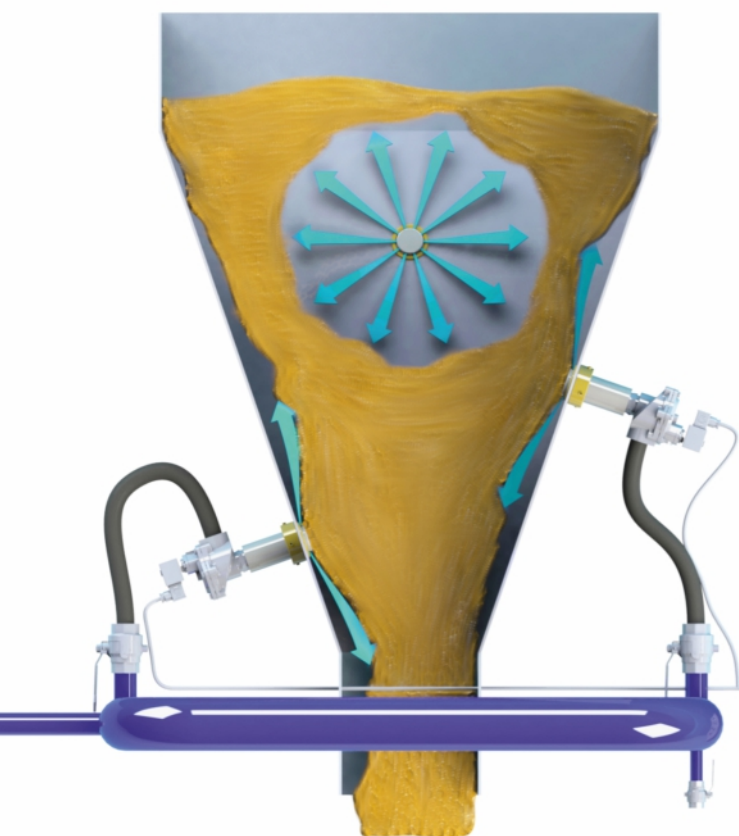

Ratholing

Arching

Bridging

Pulse nozzle models

VA-06 (3/4")

VA-51 (1-1/2")

VA-10 (1")

VA-60 (2-1/2")

X1.5 (1-1/2")

POLSTAGE

Problem with the flow of bulk materials in tanks, chutes, chute pipes or other sections of the transport line?

The pulse nozzle system guarantees 100% free flow and fully efficient operation of technological lines.

Working at full capacity

Guaranteed material flow

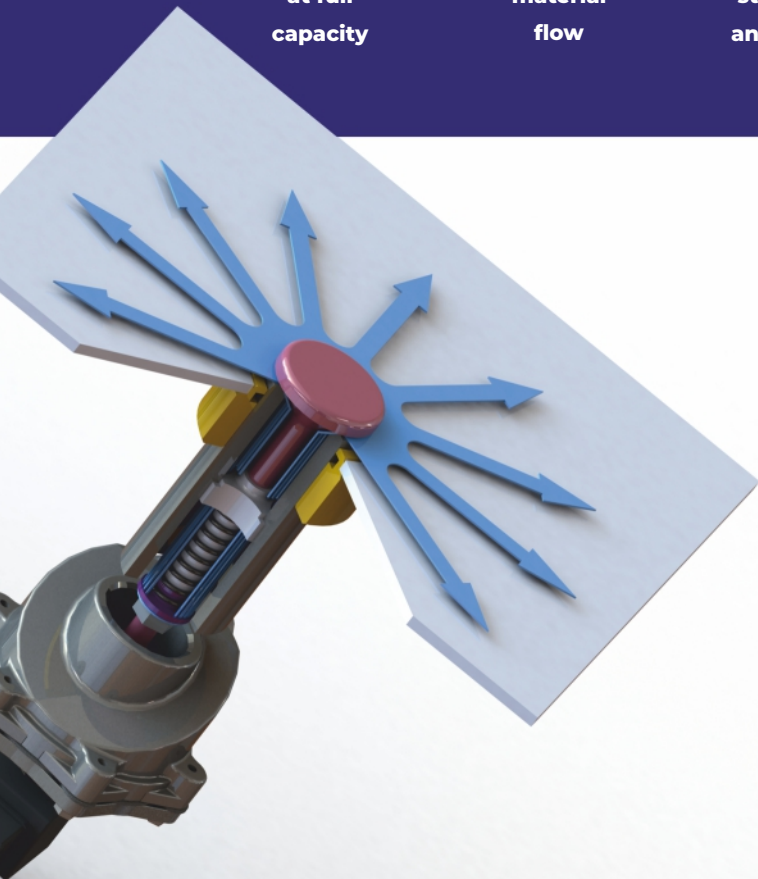

Reduced stoppage and losses

More profits from production

Higher crew safety

Installed and maintained from outside the bin

Eliminate and prevent ratholes, bridging, and sticky buildup

THE PROOF IS IN THE FLOW!
